

**EPE-PEMC 2012: ECCE Europe
15th International Power Electronics and Motion
Control Conference
Novi Sad, Republic of Serbia**

**INVITED SPECIAL SESSION: “Distributed Energy
Sources and Control of Power Systems”**

organised by

1. Alex Stankovic, Tufts University, astankov@ece.tufts.edu
2. Andrija Saric, Tehnicki Fakultet Cacak, asaric@tfc.kg.ac.rs

Call for Papers

The session will explore effects of distributed energy sources on control architecture and performance in electric power systems. The session will address dynamical aspects of frequency and voltage control as well as other problems that characterize emerging power systems. The focus will be of scalability of existing and novel control schemes in the presence of multiple non-dispatchable sources like solar and wind. The session will also draw parallels with contributions of Professor Milan Calovic of the University of Belgrade on the occasion of his 80-th birthday.

Submission procedure: The same as for regular papers.

Submission deadline: 19th December 2011

All the instructions for paper submission are included on the conference website:
